

## 2011-2012 Batiquitos Lagoon Maintenance Dredging and Erosion Repairs Mandatory Pre-Bid Meeting

Where: Batiquitos Lagoon E-1 Least Tern Nest Site off La Costa Avenue

When: Friday, September 16, 2011 (4:30 pm-6:00pm)

Directions: Take the La Costa Avenue exit from I-5 east to La Costa Park & Ride.  
Tern colony entrance is from the Park & Ride.

This is a **MANDATORY** pre-bid meeting. If a party is not represented, your firm will not be allowed to bid on this solicitation. If work is to be performed by a joint venture, at least one member of the joint venture partners must be represented at the pre-bid meeting. We apologize for the day and time selection. However, mandatory advertisement periods prior to the pre-bid meeting and desirable tides for viewing the work area at low tide do not align well.

At the pre-bid meeting, a presentation of the project site and details of work will be made. We will view the E1 Nest Site as the location for dredge staging and launching and will then caravan to an overlook over the Central Basin to view the dredging area. From here we will go to the W2 Nest Site to review the erosion repair areas and beach placement locations. Bidders will be allowed to view all of the work areas and ask questions. Questions will be answered at the pre-bid meeting to the maximum extent possible and if necessary, a follow-up written response to questions will be prepared.
